COMPREHENSIVE RECOMMENDATIONS

Category	Recommendation
SEO & Content	✓ Meta description present - ensure it's compelling and keyword-rich
	✓ Add an H1 tag to your main pages for better SEO
	✓ Create descriptive, unique titles for each page (50-60 chars)
	✓ Write engaging meta descriptions with target keywords (150-160 chars)
	✓ Use internal linking to improve crawlability and user navigation
	✓ Reduce bounce rate with engaging above-the-fold content
User Experience	✓ Ensure mobile responsiveness across all devices
	✓ Ensure clear navigation hierarchy on all pages
	✓ Design mobile-first experience for growing mobile traffic
Performance	✓ Website performance is slow - consider image optimization and caching
	✓ Optimize images (compress, use modern formats like WebP)
	✓ Implement lazy loading for images below the fold
	✓ Enable GZIP compression to reduce file transfer sizes
	✓ Minify CSS and JavaScript files to reduce load times
	✓ Use browser caching to improve repeat visitor load times
Technical	✓ Implement structured data (Schema.org) for better rich snippets
	✓ Implement SSL/HTTPS for secure data transmission
	✓ Use readable fonts (minimum 16px for body text)
	✓ Implement a clear call-to-action (CTA) strategy
